

## The Fastest, Cheapest, and Easiest International Payments Solution

TransferWise is an international payments service, serving 8 million users and processing over \$5 billion in remittance and corporate payments each month.

TransferWise's API solution allows banks and credit unions to provide your customers the industry's leading international payments experience.

This fully managed solution includes a front-end design guide, embedded risk management and compliance, FX, payment operations, and settlement.

TransferWise allows you to scale your reach, differentiate your customer experience, and grow accounts and volume – all while reducing your operational costs.

Within 4 weeks, banks and credit unions can be live with these benefits:

- **Global Reach:** 24/7/365 direct access to 86 countries, with reach to +170 additional countries via SWIFT.
- **Differentiated Customer Experience:** Recapture remittance volume, while retaining and growing corporate accounts.
  - **Speed:** 50% of the cross-border payments settle instantly (within 20 seconds). 60% settle within one hour. 90% settle same day.
  - **Low Cost:** Typically the industry's lowest cost, with total fees and the mid-market FX rate visible and guaranteed up front.
  - **Transparency:** Guaranteed delivery amount and real-time tracking provide unprecedented transparency.
- **Reduced Operational Costs:** Real-time data validation detects potential errors before initiation, reducing failures. Transparency into fees and status yields the industry's lowest customer contact rate.
- **Customer Satisfaction:** The solution has an industry-leading +80 net promoter score, with 75% of customers joining through word of mouth.
